Dear Heavenly Brickks,

As a contributor to DAV, your commitment helps to provide a lifetime of support to veterans like James.

James was shot during the fighting on Iwo Jima in World War II. When he returned home, he received only a 10% disability rating. It wasn't until decades later — when James was in his 80s — that he realized he'd earned more benefits than he was receiving.

James

With your support, DAV guided James through filing for an increase. The process is difficult for anyone but especially for America's older veterans, many of whom experience greater health impacts from their injuries as they age.

DAV also helped James' son, Phil, apply for the VA Caregiver Program so he could access additional resources to care for his aging father. Phil had applied previously and been denied. Everything changed with DAV on the case. "Things started to get done, and the results have been tremendous for our family," says Phil.

Thank you for your most recent gift, and for always being there for veterans like James and their families. You make our work for veterans possible!

With deepest gratitude,

Barry A. Jesinoski,
DAV National Adjutant/CEO
