May 3, 2021

Dear Heavenly Brickks,

You just helped save someone's life.

I wish to thank you for your April 29, 2021 donation of supporting the American Heart Association's efforts to fight cardiovascular disease, the leading cause of death in America. Your gift will be carefully and efficiently used to maximize its effectiveness - and I assure you it will help save lives.

This year that work takes on a new dimension as we support numerous research and patient-support initiatives to mitigate the spread and severity of COVID-19. While life-threatening to all Americans, the coronavirus is particularly dangerous to people with heart and brain issues, a constituency we are dedicated to helping.

People like you, Heavenly Brickks, are helping advance the fight against heart attack, stroke and other diseases of the heart and blood vessels. Your gift will support the critical research, education and community programs that promote life-saving prevention strategies and medical therapies.

Once again, I thank you for your generous and continuing support.

Sincerely,

*Bert Scott*
