Dear Friend of the Sacred Heart,

Thank you very much for your gift which will help break the cycle of generations of poverty that many of our students come from. Your thoughtful gift provides the students with the tools and skills they need to learn, to grow and succeed.

The children at Holy Family School come from families struggling with unimaginable financial hardships. A quality education — a firm foundation not only in academics, but also in Christian values and respect for others — is essential if these children are to successfully break the cycle of poverty.

Your compassionate giving is transforming the lives of children born into generations of poverty!

Every day, wonderful stories of our students' achievements are made possible through your continued support. *You are helping these children beat the odds!*

The children and I remember you in our prayers daily. Please continue to remember them in yours. God bless you and your family.

Sincerely in the Sacred Heart,

Father Jack Kurps, SCJ
